Subject: The case

Hello,

I'm writting you from the Netherlands.
I'm try too keep uptodate with the case most of the time and from what I heard.
The sollution before you is a sollution for the future .

But the case lacks a punishment for what's done in the past.
- Compaies have lost lots of profit by microsoft doings.
- People all over the world have been left no choice of what they use.
- and more

All this has been said to be true.
Why isn't there a punishment for this in the settlement??

I ssems to me this is like a little kid who steals candy.
And you telling the kid not to steal in the future.

Microsoft isn't a kid. They're grown up.
So please be a judge and not a Mom or Dad and punish MS like a adult.
They know the've been wrong. Think of all the people/companies that got hurt by them.
A sollution like this one isn't fare to them.

Thanks

Chris Geers MCSE.
The Netherlands.

(sorry for my poor english.)
